REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. & G. means a deed containing Cove- nant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be im- peached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus im- pliedly claims to be owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not cor- respond with the existing ones, owing to there having been no official designation made of them by the Department of Pub- lic Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property men- tioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the as- sessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1917.

T. S. preceding the consideration in a conveyance means that the deed or con- veyance has been recorded under the Ter- rens System.

Flats and apartment houses are classi- fied as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the prop- erty recorded is in the annexed district, for which there is no section or block number.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Althoff, Magdalena.—May28'11 (Dec31'17)—17TH ST, 530 E (3:974-44), 23.5x92, 5-sty bk & stn tnt, \$12,000.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1917.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Choate, Jos. H.—May14'17 (Jan12'18)—63D ST, 8 E (5:1377-65), 25x100.5, 5-sty bk dwg, \$105,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Beer, Jacobina or Binn.—Feb14'15 (Jan17'18)—69TH ST, 322 E (5:1443-45), 16.8x77.4, 3-sty & b stn dwg, \$9,000.

EXPLANATION OF TERMS USED AND
RULES FOLLOWED IN COMPILING
RECORDS.

Q. C. is an abbreviation for Quit Claim
deed, i. e., a deed where all the right,
title and interest of the grantor is con-
veyed, omitting all covenants and war-
ranty.

C. a G. means a deed containing Cove-
nant against Grantor only, in which he
covenants that he hath not done any act
whereby the estate conveyed may be im-
peached, charged or encumbered.

B. & S. is an abbreviation for Bargain
and Sale deed, wherein, although the
seller makes no expressed consideration,
he really grants or conveys the property
for a valuable consideration, and thus im-
pliedly claims to be the owner of it.

The street and avenue numbers given
in these lists are, in all cases, taken from
the insurance maps when they are not
mentioned in the deeds. The numbers, it
will occasionally be found, do not cor-
respond with the existing ones, owing to
there having been no official designation
made by them by the Department of Pub-
lic Works.

The first date is the date the deed was
drawn. The second date is the date of
filing same. When both dates are the
same, only one is given. When the date
of drawing is other than in the current
year the stated year is given. When both
the dates are in the same year the year
follows the second date.

The figures in each conveyance, thus,
2:482-10, denote that the property men-
tioned is in section 2, block 482, lot 10.

It should also be noted in section and
block numbers that the instrument as filed
is strictly followed.

A \$20,000—\$30,000 indicates the as-
sessed value of the property, the first
figures being for the lot only and the
second figures representing both lot and
building. Letter P before second figure
indicates that the property is assessed as
in course of construction. Valuations are
from the assessment roll of 1916.

DWELLINGS.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.

REAL ESTATE APPRAISALS.

The following values were placed on
real estate properties this week by the
State appraisers in transfer tax proceed-
ings, affecting Manhattan holdings. The
amount specified does not in every case
indicate the equity or interest of the de-
cedent. In some cases he is not even the
owner of record. It merely quotes the
estimated market value of the realty re-
gardless of mortgages or other liens. The
information comprises the name of de-
cedent, date of death and recording
date, the location of property, block
and lot on city map, description of
building, size of lot and estimated value
on the date given. Where decedent owned
property in other boroughs, details of
Manhattan holdings only are given.

Borough of Manhattan.

Alvarez, Josephine M.—Dec22'16 (Jan31
'18)—92D ST, 46 E (5:1503-50), 21x100.8,

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Canochois, Lillian.—June5'13 (Jan31'18)—117TH ST, 405 W (7:1961-52), 18x100.11, 4-sty bk dwg, \$24,325.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Clark, Camilla.—Oct'21'16 (Feb'25'18)—14TH ST, 103 W (2:609-34), 25x100, 3-sty bk loft & str bldg, \$30,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. & G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.
av—avenue.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death and recording date, the location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Atwood, Mabel J.—Apr21'16 (Feb27'18)—82D ST, 51 W (4:1196-8½), 16.8x102.2, 4-sty bk dwg, \$18,000.

SOUTHERN BLVD, 991-93, 1-sty t. c. ext, 50 x14, to 2-sty bk str & restaurant; \$1,200; (o) Williamson & Bryan, 2796 3 av; (a) Moore & Landsiedel, 3 av & 148th (25).

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432 lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings. All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

RECORD AND GUIDE QUARTERLY.

Attention is called to the users of the records, published in the Record and Guide, to the Record and Guide Quarterly. The Quarterly is published every three months, the final installment being combined with the three preceding ones, making, in one compact volume, a complete transcription, in digest form, of all Conveyances, Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the state appraisers in transfer tax proceed-ings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the de-cedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty re-gardless of mortgages or other liens. The information comprises the name of de-cedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Beaman Hettie S.—May4'17 (Feb26'18)—31ST ST, 112 E (3:886-80), 19x98.9, 3-sty bk & stn dwg, \$25,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

(2610)

NEW YORK, MARCH 23, 1918

PRICE 15 CENTS

CONVEYANCES.**Borough of Brooklyn.**

Whenever the letters Q. C., & C. a G. and B. & S. occur, preceded by the name of the grantees, they mean as follows:

1.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2.—C. a G. means a deed containing a Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

4.—The figures preceding the consideration are the section and block numbers.

MISCELLANEOUS CONVEYANCES.

Borough of Brooklyn.

Certified copy of last will & testament of Arthur Teets, of Borough of Manhattan, City N Y (misc).

Contract recorded in Liber 9 of CONTRACTS, page 39; cancellation of CONTRACT; Bertha Pardigon with Kath Ottenberg (4:934 & misc).

MORTGAGES.

Borough of Brooklyn.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P.M." occur, preceded by the names of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage,

and for fuller particulars see the list of transfers under the corresponding date.

THE RECORD AND GUIDE QUARTERLY.

Attention is called to the users of the records, published in the Record and Guide, to the Record and Guide Quarterly. The Quarterly is published every three months, the final installment being combined with the three preceding ones, making, in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plan.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

D'Arschot, Countess Gaston.—Feb21'12 (Dec26'17)—10TH ST, 27 W (2:574-58), 25.4x94.10, 4-sty bk & stn dwg, \$28,000.
